---	---------------	---

1	chapter chart
---	---------------

claim	function
doubt	
1. <i>Orlando</i> 's opening qualifies gender in language	Introduces sample text on gender
2. Text analysis removes minor qualities	Explains cleaning in text analysis
3. Cleaning would strip text of gender	Explains how cleaning affects sample
4. Gender designation is not "minor" for <i>Orl</i>	Contextualizes gender in source text
+ add reasoning: plot, critique on gender in <i>Orl</i>	
5. Iteration re-works text analysis to read gender	Previews chapter's main argument
falsifiable	
1. Text analysis to test/verify interpretation	Introduces falsifiable crit perspective
2. Falsifiable criticism into distant reading	Develops falsifiable crit to distant reading
3. Distant reading understates interpretive moves	Critiques falsifiable crit on interpretive st
+ incorporate more critique on Ramsay	
4. The fantasy of the falsifiable	Outlines fuller critique of falsifiable crit
+ flesh out critique: size, ambition, power of tech	
5. Da's defense of science as reproducible	Surfaces shared assumption across diff vie
6. Underwood's method pushes against objectivity	Explores reasonable response to this assu
7. But his algorithm reinscribes gender as binary	But critiques new response for reinscribin
+ develop critique on logistic regression	
+ develop critique on gender binary: active/passive	
8. While other work interrogates social categories	Introduces new orientation around text a
9. Mandell's study of genre for gender	One perspective here problematizes ident
10. Work on race analyzes a mistake in text analysis	Another perspective analyzes reductive m
11. Rigidity of method can surface unexpected readings	Culminates argument in support of last p
iterative	
1. Mandell misreads performativity as imitability	Introducing performativity, critique of Ma
+ butler is misunderstood, needs re-reading	
2. Trans critique of Performativity's discursivity	References a critique of its discursivity
3. Irigaray's excluded, unspeakable feminine	Introduces a theory of unspeakable femin
3.1 Butler questions how to bring feminine back in	Describes Butler taking up this theory
+ on Butler's rhetorical method, questioning	
4. Butler reasons that language produces reality	Introduces a central point for Butler
5. Subjects are interpellated into power structures	Explores a consequence of this point wrt
+ add consequence for interpellation	
+ gender determines power structures	
6. Subversion becomes possible through citing	
+ add example of citing from "Critically Queer"	
7. Citing/Miming language enables subversion	
8. Iteration displaces phallogocentrism	
9. Iteration is central to text analysis in Python	
10. For loop iterates and filters text	
11. Explanation of for loop filtering mechanism	
12. Text analysis cleaning steps	
13. Next step: removing stopwords	
14. Explanation: checking words against list of stops	
15. Next step: lemmatizing	
16. Explanation: lemmatize() function
